## **HINGED DOOR FLOOR PROTECTION, KIT INSTRUCTIONS FOR CONTINUING AIRWORTHINESS**

### **MODELS: EUROCOPTER AS350\***

\*With AFT LHS RHS hinged doors installed

Read all of the Instructions for Continuing Airworthiness  
thoroughly prior to performing any activities relating to this product

## **Table of Contents**

<b><u>Section</u></b>	<b><u>Description</u></b>	<b><u>Page</u></b>
1	Description	2
2	Maintenance Manual Supplement	3
3	Installation & Removal Instructions	8
	Installation Instructions	9
	Removal Instructions	15
4	Illustrated Parts Breakdown	16

## **Notes**

1. If changes to this document are required, Alpine Aerotech LP shall revise all pages and reissue the entire document.
2. Alpine Aerotech LP shall make any subsequent revisions of this document available free of charge upon request. Alpine Aerotech LP also recommends that the end user of this product periodically verify the revision level of this document.

## **Section 1: Description**

### **Description**

The following information provides a functional description of the Hinged Door Floor Protection, Kit as defined in Alpine Aerotech LP authority dataset AAL-312-020-001.

- The Floor Protection, Kits are rigid pieces of material that are installed atop the existing floor to protect it from dents and punctures associated with typical aircraft usage. This occurs most frequently during loading and unloading operations, but can also occur during small inflight shifts of said cargo.
- The Hinged Door Floor Protection, Kit when installed, adds additional protection to the floor panels, as it is manufactured from a material specifically designed to spread and attenuate energy.

## **Section 2: Maintenance Manual Supplement**

### **General Notes**

1. The following information defines the instructions for continuing airworthiness, repair allowances and airworthiness limitations for the item(s) referenced within this document.
2. Refer to the current revisions of the Eurocopter AS350 Master Service Manual for Instructions for Maintenance/Inspection with respect to the item(s) referenced within this document.
3. Refer to the Section 3: Installation & Removal Instructions and Section 4: Illustrated Parts Breakdown for the replacement and/or installation of the item(s) referenced within this section.
4. Scheduled inspection for the item(s) referenced within this document shall be accomplished in accordance with (IAW) the Inspection Procedures specified.
5. Repair allowances for the item(s) referenced within this document shall be accomplished IAW the Repair Procedures specified.
6. Limitations for the item(s) referenced within this document are IAW the Airworthiness Limitations specified.

## **Airworthiness Limitations**

The Airworthiness Limitations section is approved by the Minister and specifies maintenance required by any applicable airworthiness or operating rule unless an alternative program has been approved by the Minister.

The Airworthiness Limitations section is FAA approved and specifies maintenance required under Sections 43.16 and 91.403 of the Federal Aviation Regulations unless an alternative program has been FAA approved.

## **Supplement to applicable Maintenance Manual, Chapter 4, Airworthiness Limitations Schedule**

### **Notes**

1. Refer to the applicable Master Service Manual, Chapters, for general information on airworthiness limitations and airworthiness limitation schedules.
2. Item(s) **not** listed in the Scheduled Airworthiness Limitations section within this document have an unlimited airworthiness life.

### **Scheduled Airworthiness Limitations**

1. There are no airworthiness limitations associated with the item(s) referenced within this document.

---

## **Inspection Procedures**

### **Supplement to applicable Maintenance Manual, Chapter 5, Inspection and Component Overhaul Schedule**

#### **Notes**

1. Refer to the applicable Master Service Manual, Breakdown of the MSM Section 7, for general information on inspections, inspection definitions, inspection intervals, inspection methods and inspection schedules.
2. General Inspections, as indicated within this document, are defined as visual, non-thorough checks.
3. Detailed Inspections, as indicated within this document, are defined as visual and thorough, searching checks.
4. Perform Daily Inspections every day, prior to flight operation. If damage is detected, perform the 150 Hour/12 Month Inspections.
5. Perform 150 Hour/12 Month Inspections every 150 hours or every 12 months, whichever occurs first, prior to flight operation. If damage is detected, refer to the Repair Procedures section within this document.

#### **Scheduled Inspections**

##### **1. Daily Inspections**

Data Reference: Section 3: Installation and Removal Instructions  
Section 4: Illustrated Parts Breakdown

- i. Perform a General Inspection on the Hinged Door Floor Protection, Kit , Installation for general condition.
- ii. Perform a General Inspection on the Hinged Door Floor Protection, Kit , Installation for proper security.

### Scheduled Inspections

#### 2. 150 Hour/12 Month Inspections

Data Reference: Section 3: Installation and Removal Instructions  
Section 4: Illustrated Parts Breakdown

- I. Perform a Detailed Inspection on all items to ensure proper security.
- II. Perform a Detailed Inspection on all items/materials to ensure proper integrity.
- III. Perform a Detailed Inspection on the Hinged Door Floor Protection, Kit to ensure that it is not delaminating.
- IV. Perform a Detailed Inspection on all surfaces & locations with Velcro applied to ensure no damage has occurred to the aircraft floor.

### **Repair Procedures**

1. Repairs to the item(s) referenced within this document are **not** permitted. Contact Alpine Aerotech LP for further information if repairs are required to the item(s) referenced within this document.

### **Section 3: Installation & Removal Instructions**

#### **Weight & Balance**

<u>Part Number</u>	<u>Description</u>	<u>Weight</u>	<u>Long. Arm</u>	<u>Lat. Arm</u>
AAL-312-020-001	Hinged Door Floor Protection, Kit	13.87*	69.457	.024 LBL
		6.291 (Kg)	1.764 (m)	.0006(m)

\* Total increase in weight to aircraft.

#### **General Notes**

1. All Installation Instructions shall be accomplished IAW standard aircraft practices. Refer to the current revision of the FAA publications AC 43.13-1B and AC 43.13-2B for details on standard aircraft practices.
2. All Dimensions are in imperial measures (inches/pounds).
3. Refer to Section 2: Maintenance Manual Supplement for instructions on maintenance for the item(s) referenced within this section.
4. Refer to the Section 4: Illustrated Parts Breakdown for the part numbers of the item(s) referenced within this section.

Alternate Part: DIN965-M4 x 16

|

Alternate Part: DIN7985-M4 x 18

|

## **Installation Instructions**

1. Gain access to the cabin floor, temporarily remove all seats, LHS collective, & foot pedals. Remove any existing floor board protection kits, door sills and door sill fasteners. Reference Figure 1.

## Installation Instructions

2. Pre-fit the FWD LHS Hinged Door Floor Protection, Assy (Item 1) & FWD RHS Hinged Door Floor Protection, Assy (Item 7) by lining up the outboard edge of the panel, assy with the existing floor panel edge. Reference Figure 2.

**Note:** Ensure clearance around cutout features, cyclic, collective, & pedals etc.

3. With the panel lined up use the pre-cut Ø.25 holes and a felt pen to mark out the locations for the Velcro, Details (Items 5, 6) and remove the panels (Items 1 & 6). Reference Figure 2.

**Figure 2**  
Some Items  
Removed for  
Clarity

VIEW ORIENTATION

## **Installation Instructions**

4. Clean the areas between the felt pen marks with alcohol taking care not to wipe away the felt pen marks.
5. Individually separate each Velcro, Detail (Item 6) off of the FWD LHS Hinged Door Floor Protection, Assy (Item 1) and Velcro, Detail (Items 13 & 14) off of the FWD RHS Hinged Door Floor Protection, Assy (Item 7) peel adhesive backing from the Velcro, Details (Items 6, 13 & 14).
6. Using the felt pen marks as reference points, apply the Velcro, Details (Items 6, 13 & 14) to the floor protection panel in their respective locations. Reference Figure 3. Apply adequate pressure to ensure a secure bond.
